Kanban

Use template

Kanban (the Japanese word for "visual signal") is all about helping teams visualize their work, limit work currently in progress, and maximize efficiency. Use the Kanban template to increase planning flexibility, reduce bottlenecks and promote transparency throughout the development cycle.

Track work using a simple board

Work items are represented visually on your kanban board, allowing teams to track the status of work at any time. The columns on your board represent each step in your team's workflow, from to-do to done.

[Learn more about kanban boards](#)

Use the board to limit work in progress

Set the maximum amount of work that can exist in each status with work in progress (WIP) limits. By limiting work in progress, you can improve team focus, and better identify inefficiencies and bottlenecks.

Product

Recommended for

Teams that control work volume from a backlog

DevOps teams that want to connect work across their tools

Work types

- Epic
- Story
- Bug
- Task
- Sub-task

TO DO

Next: Select a project type

Use template

← Back to project templates

1 Project template

Kanban

Visualize and advance your project forward using work items on a powerful board.

Change template

2 Choose a project type

⚠ You'll need to create a new project if you decide to switch project types later.

Team-managed

Set up and maintained by your team.

For teams who want to control their own working processes and practices in a self-contained space. Mix and match agile features to support your team as you grow in size and complexity.

Select a team-managed project

Company-managed

Set up and maintained by your Jira admins.

For teams who want to work with other teams across many projects in a standard way. Encourage and promote organizational best practices and processes through a shared configuration.

Select a company-managed project

Add project details

Explore what's possible when you collaborate with your team. Edit project details anytime in project settings.
